<b>Total</b>	<b>100.0</b>

The table to the left and the graph below highlight that many survey respondents recognize a lack of funding and resources is a major problem facing the public education system in BC communities. Lack of funding, cited by 16% of respondents, can be linked directly to several other problems named by respondents, including crowded classrooms, help for students with special needs, school closures, and too few teachers, resources/materials, and extra curricular activities. Combined, these responses equal 40.3% of total problems listed by respondents.
